

Construction Industry Scheme

It is now well over a year since the considerable changes to the Construction Industry Scheme.

It is clear that the new scheme has resulted in both additional administration work and costs, along with the extra exposure to severe penalties for non compliance.

With this in mind, I would like to introduce our CIS Service, which runs alongside our payroll bureau. The service has been designed to be flexible so it can be tailored to your exact business needs.

Whether you have **1** or **100** subcontractors, we can help.

The Service

The service will include the following:

- Online subcontractor verification
- Calculation of tax deductions
- Preparation of payment statements for the subcontractors
- Preparation and submission of monthly HM Revenue & Customs Returns

Some of the benefits to you:

- Cut down on administration costs
- Avoid costly non compliance penalties
- The backup of experienced professional staff
- Free up time to spend on running your business

If this service is of interest or you wish to discuss the new regulations in greater detail, please do not hesitate to contact us or visit our website at www.loucas.org.uk

For your **FREE** quotation please contact Helen Wood, Head of Payroll and CIS on **01622 758257** or via email at helen@loucas.org.uk
